

## INSTRUCTIONS for INSTALLATION and MAINTENANCE “LED VIEWING BOXES”

### INSTALLATION:

- Hang the viewing box to the wall using the special key-shaped holes on the back (Pict. 5).

### USE :

- **Power on :**
  - Connect the power socket with the supplied cable (Pict. 1).
  - Set the main switch to 1 (Pict. 1); the dot will light up on the display (Pict. 2).
  - Manual: the sector is switched on by pressing the "on / off" button (Pict. 2); the display will show the degree of regulation memorized in the last switching on from 0 to 9 (Pict. 3).
  - If the "Automatic" mode is desired, press the button (Pict. 2); the "A" for Automatic will appear on the display (Pict. 4); the sector will light up by contacts, when the plate is inserted (Pict. 6).
- **Regulation :**
  - Increase or decrease the light intensity using the buttons (Pict. 2).

### MAINTENANCE :

- To clean it use soft cloth and products that do not contain alcohol or solvents.
- To reach the inner parts, unscrew the rear panel (Pict. 5), operation to be carried out by specialized personnel (screws on the edge).

Contacts for the “Automatic” mode
